Outlook for the financial year 2023

Puuilo specifies the outlook for the financial year 2023 given in its financial statements release on 30 March 2023 and repeated in the Q1 business review on 14 June 2023.

Puulo now forecasts that net sales for the financial year 2023 will be EUR 325 – 355 million (296.4) and the adjusted operating profit (adjusted EBITA) in euros will be EUR 50 – 60 million (48.8). Previously, the company forecasted that net sales and adjusted operating profit (adjusted EBITA) in euros would increase compared to the financial year 2022.

The specified guidance is based on the development in the first half of the year and the outlook for the second half of the financial year.

The forecast includes elements of uncertainty arising from the energy crisis, the war in Ukraine as well as decline in purchasing power due to rise in interest rates and inflation.

Puuilo's long-term targets

There have been no changes in Puuilo's long-term financial targets or growth expectations, announced in connection with the listing.

Puuilo's long-term targets for the financial years 2021-2025:

- Growth: Net sales above EUR 400 million by the end of financial year 2025 with annual organic growth in excess of 10%.
- Profitability: Adjusted EBITA margin between 17 19% of net sales.

- Dividend policy: Puulo aims to distribute at least 80% of net income for each financial year in dividends, depending on the company's capital structure, financial position, general economic and business conditions, and future prospects.
- Leverage: Net debt to adjusted EBITDA below 2.0x.

CEO Juha Saarela's review

It is a pleasure to present our solid results for the second quarter. We had a very strong performance in the second quarter, mainly resulting from a strong growth in customer flows. In Q2, the number of customers grew by over 18% compared to previous year. Puuilo is performing well, although the overall retail market is facing difficulties. Thus, our market share continues to strengthen. This is also supported by the customer survey we conducted in May. The survey shows that we are winning customers from our main competitors.

In Q2, Puuilo net sales increased by 17.0% (+11.9%) and by 8.1% (+7.9%) in comparative terms. We had another commercially very successful quarter and for the first time, quarterly net sales exceeded EUR 100 million. Each month of the quarter succeeded well, and the highest growth was seen in July. The sales increased in all main product groups, also in comparable terms. The increase in the basket size discontinued, which was mainly due to the sales mix changing to products with lower unit prices. Currently, consumers are clearly postponing the purchase of more expensive products and focusing on the affordable everyday supplies. Puuilo's concept serves these customers extremely well because most of the products we sell cost less than 10 euros.

In Q2, Puuilo's adjusted EBITA was EUR 20.9 million (18.0) and it increased by EUR 2.8 million compared to previous year. The increase resulted from the positive development in net sales and good cost control but above all, the improved gross profit. In Q2, the company's gross profit was 37.1% (36.5%) and it grew by 0.7 percentage points compared to previous year. The positive development of the gross profit was supported by the decrease in logistics and storage costs to normal levels, which have been our focus area. This is also clearly reflected in the decrease of inventory value, which has been our goal since the pandemic years. Profitable business and efficient working capital management are also shown in the company's cash assets, which are at record level.

The growth continues. In June, we opened a new store in Vihti's Nummela, where we made another opening sales record as customers rushed to the store to make purchases at affordable price. In the second half of the year, we will have three more openings, namely Kerava that was opened in August together with Helsinki Konala and Vantaa Varisto which will be opened later this year.

The operating environment is, by all external measures, challenging to say the least. Rising interest rates, high inflation and the price of energy make consumers reduce their consumption during the rest of the year as well. However, our figures make us trust the company's performance also in the future. Discount retail maintains its profitability and is doing well also in financially challenging times.

Significant events of the reporting period

Performance matching share plan for key employees

On 14 April 2023 the Board of Directors of Puulo Plc decided to launch a new share-based incentive plan for the key employees of the company. The aim of the plan is to align the objectives of the shareholders and the key employees in order to increase the value of the company in the long-term.

The Performance Matching Share Plan includes one performance period, spanning approximately financial years 2023 – 2025. The performance criteria are the Total Shareholder Return of the Puuilo share (TSR) and the Adjusted EBITA of the Puuilo Group. The target group of the plan consists of a maximum of 80 persons, including the CEO, members of the Management Team, Store Managers and other key personnel. Primarily, the rewards from the plan will be paid partly in the company's shares and partly in cash by the end of May 2026. The cash proportion is intended to cover taxes and tax-related costs arising from the reward to the participant. The rewards to be paid on the basis of the plan correspond to the value of an approximate maximum total of 678,000 Puuilo Plc shares, including the proportion to be paid in cash. The final number of shares will depend on the participants' personal share acquisitions and the achievement of the targets set for the performance criteria.

At the end of the reporting period, the amount to be recognised as expense for the financial year 2023 for the plan 2023 – 2025 is estimated at a total of EUR 0.2 million.

Repurchase of own shares

On 14 June 2023, Puulo announced that the company's Board of Directors had decided to use the authorization given by the Annual General Meeting held on 16 May 2023 to repurchase the company's own shares.

The repurchases started on 15 June 2023 and ended on 27 June 2023. During this period, Puuilo repurchased 240,000 shares for an average price of EUR 7.0885 per share, corresponding to approximately 0.28% of the total number of the company's shares, which is 84,776,953.

The repurchased shares are to be used for pay-outs under the share-based incentive plans of Puuilo Plc. The shares were repurchased through public trading on Nasdaq Helsinki at the market price prevailing at the time of repurchase.

Following the repurchases, the company holds a total of 555,000 shares.

Growth strategy

Puuilo's target is to continue strengthening its position as one of the leading discount retailers in Finland by utilising its key strengths: maintaining an attractive and wide product assortment, low prices and convenient shopping experience.

In line with its growth strategy, the company aims to open at least 3 - 4 new stores per year and to continue to increase its like-for-like net sales by further increasing Puuilo's brand awareness. The company has an efficient and standardised store opening process, which enables the opening of several stores each year without negatively affecting other operational activities. New stores are, on average, profitable after the first full month of opening.

Puullo aims to continue to develop its value proposition by continuing to provide wide product assortment satisfying the needs of the customer base always with low prices. Puullo also aims to continue investing in the development and growth of its online store to offer its customers a possibility to shop diversely both in the stores and the online store.

Store network development

During the reporting period Puuilo opened stores in Vantaa Porttipuisto and in Vihti's Nummela. Kerava store opened in August and by the end of the year new stores will be opened in Helsinki Konala and Vantaa Varisto. The aim for the financial year 2024 is to open at least four new stores. According to the definition by Puuilo, a store is considered new during the year of openings and the following financial year. Relocated stores are considered like-for-like stores.

On 31 July 2023, Puuilo had a total of 39 stores (34 stores) across Finland. The current store network is young, approximately half of the stores have been opened during the last five years. In recent years, Puuilo has opened an average of 3 - 4 new stores a year.

Financial development

Seasonality

Puuilo's business is, in part, seasonal in nature. As such, there are seasonal peaks in Puuilo's net sales, operating result and cash flows, although seasonal dependence is relatively low compared to the trade sector in general. Historically, Puuilo's most important seasons in terms of net sales have been the second and third quarter of each financial year. Additionally, Puuilo's net sales are partly impacted by exceptional, harsh, or seasonally atypical weather.

Financial year

Puuilo's financial year starts on 1 February and ends on 31 January the following year. The figures in parentheses refer to the comparison period the previous year, unless otherwise stated.

Principles and key themes of sustainability

Conducting business in a sustainable and responsible manner is an integral part of Puuilo's operations, overall quality of operations and our company's values. The company recognises sustainability as a theme that not only affects the entire chain of operations, but also creates value for the business as a whole. This requires precise and targeted measures at all levels of the company.

Customers, personnel, shareholders, authorities, investors and the media have been identified as the most relevant stakeholders for sustainability work. All activities aim to serve stakeholders to the highest possible standard, while taking into account sustainability considerations. The key sustainability issues are grouped into three priority areas: responsible retailer, a good place to work and sustainable consumption. Being a responsible retailer covers both our own personnel and the supply chain. A good place to work means that, as an employer, Puuilo strives to be a good workplace, that our personnel want to commit to. In addition, we aim to build a responsible work atmosphere and attitude environment that the personnel can relate to and thus be involved in building a shared responsible workplace. Promoting sustainable consumption means concrete savings and measures in our own operations in order to improve the environment but also cost efficiency.

Puuilo has published a report on non-financial information as part of the Report by the Board of Directors 2022 and a separate Sustainability Report 2022. Both reports are available at https://www.investors.puuilo.fi/en/investors/reports_and_presentations.

Our measures in the first half of the financial year 2023:

A responsible retailer

- The share of foreign suppliers committed to BSCI or equivalent accounted for 50% of the suppliers from whom we have placed orders during the last 12 months. We will continue to work to increase the share, aiming for 80% by the end of the financial year 2025.
- Factory and supplier visits abroad have been continued in the spring 2023 after the pandemic eased.
- The Supplier Code of Conduct is included in 68% of domestic cooperation agreements. We will continue to include Supplier Code of Conduct in cooperation agreements, the goal is that by the end of the financial year 2025, 80% of domestic cooperation agreements whose annual purchases exceed EUR 50 thousand are included.

A good place to work

- We have continued to communicate and implement Puuilo values published in 2022.
- We have continued to implement the Internal Code of Conduct in our organisation.
- We have continued personnel and, in particular, supervisor training for management excellence and occupational safety.
- We have continued to provide occupational safety training and to measure accident frequency in order to reduce accidents.
- We have continued to offer primarily full-time employment contracts as planned.
- We have continued to improve our employer activities and to build the employer image.
- As in previous years, we will conduct an annual job satisfaction survey in the second half of the year.

Consume more sustainably

- In cooperation with our partner, we have continued to build relevant metrics to measure the emissions load of transport Puuilo has control over.
- The comparable electricity consumption decreased by approximately by 14% from the previous year.
- Energy efficiency has been improved by switching to LED lights in several stores. The remaining five stores will have their LED lights replaced within the next two years.
- Our partner has started to install Wind-powered high-power charging stations in connection with Puulo stores. By the end of the fiscal year, charging stations will be available in six stores.
- Three new solar power stations in our stores during the first half-year (goal for 2023 is six new stations).
- Our comparable recycling rate during the first half of the financial year was 69%, i.e. at the same level as at the same time last year. The goal is 73% by the financial year 2025.

Risks and business uncertainties

Risks and uncertainties related to Puuilo's operating environment, markets, business, strategy implementation, financing and financial position are described in detail in the Report by the Board of Directors 2022. The most significant business risks and uncertainties are related to the war in Ukraine, rising interest rates, inflation causing decline in purchasing power and the effects of these.

The general principles of Puuilo's risk management are also described on the company's investor website at https://www.investors.puuilo.fi/en/investors/corporate_governance/risk_management.

Significant events after the end of the reporting period

Puuilo did not have any significant events after the reporting period.

Notes to the financial information

1. Basis of preparation

This financial information has been prepared in accordance with IAS 34 Interim Financial Reporting – standard. In preparation of this financial information the same accounting policies, methods of computation and presentation have been applied as in the consolidated financial statements 2022. No new accounting policies have been adopted during the reporting period, that would have had a material impact to this financial information. The Half-year financial Report does not include all the notes included in the consolidated financial statements for the reporting period ended 31 January 2023 and this financial information should be read in conjunction with the consolidated financial statements. This financial information has not been audited.

Due to the nature of Puuilo's operations, the group has only one reportable operating segment. Individual stores and online store are considered as distribution channels for Puuilo's products, and all the stores operate under the Puuilo trademark. Functions such as financial management, information management, marketing, purchases, and logistics are centralized and managed on the group level.

The preparation of financial information requires management to make estimates and assumptions that affect the application of accounting policies and the recognized amounts of assets, liabilities, income, and expenses. Actual results may differ from these estimates. Accounting estimates and assumptions used in the preparation on financial information are similar to those applied in the preparation of the consolidated financial statements for the financial year ended 31 January 2023.

Figures presented in parentheses refer to corresponding reporting period in previous reporting period, if not otherwise stated.

2. Seasonality

Puuilo's business is, in part, seasonal in nature. As such, there are seasonal peaks in Puuilo's net sales, results of operations and cash flows, despite the retail sector being relatively independent of seasons. Historically, Puuilo's most important seasons in terms of net sales have been the second and third quarter of each year. Additionally, Puuilo's net sales are partly impacted by exceptional, harsh, or seasonally atypical weather.

3. Significant events of the reporting period

Performance matching share plan for key employees

On 14 April 2023 the Board of Directors of Puuilo Plc decided to launch a new share-based incentive plan for the key employees of the company. The aim of the plan is to align the objectives of the shareholders and the key employees in order to increase the value of the company in the long-term.

The Performance Matching Share Plan includes one performance period, spanning approximately financial years 2023 – 2025. The performance criteria are the Total Shareholder Return of the Puuilo share (TSR) and the Adjusted EBITA of the Puuilo Group. The target group of the plan consists of a maximum of 80 persons, including the CEO, members of the Management Team, Store Managers and other key personnel. Primarily, the rewards from the plan will be paid partly in the company's shares and partly in cash by the end of May 2026. The cash proportion is intended to cover taxes and tax-related costs arising from the reward to the participant. The rewards to be paid on the basis of the plan correspond to the value of an approximate maximum total of 678,000 Puuilo Plc shares, including the proportion to be paid in cash. The final number of shares will depend on the participants' personal share acquisitions and the achievement of the targets set for the performance criteria.

At the end of the reporting period, the amount to be recognised as expense for the financial year 2023 for the plan 2023 – 2025 is estimated at a total of EUR 0.2 million.

Repurchase of own shares

On 14 June 2023, Puullo announced that the company's Board of Directors had decided to use the authorization given by the Annual General Meeting held on 16 May 2023 to repurchase the company's own shares.

The repurchases started on 15 June 2023 and ended on 27 June 2023. During this period, Puuilo repurchased 240,000 shares for an average price of EUR 7.0885 per share, corresponding to approximately 0.28% of the total number of the company's shares, which is 84,776,953.

The repurchased shares are to be used for pay-outs under the share-based incentive plans of Puuilo Plc. The shares were repurchased through public trading on Nasdaq Helsinki at the market price prevailing at the time of repurchase.

Following the repurchases, the company holds a total of 555,000 shares.

8. Net Debt

Net debt calculated based on the consolidated balance sheet as follows:

EUR million	31 Jul 2023	31 Jul 2022	31 Jan 2023
Non-current financial liabilities			
Loans from financial institutions	69.9	69.8	69.9

Total financial liabilities	129.3	122.8	123.2
Cash and cash equivalents	50.1	37.8	28.8
Net debt	79.2	85.0	94.4

Loans from financial institutions are classified at level 3 of the fair value hierarchy because their fair value is based on non-observable inputs, including the company's own estimates related to the level of risk premium.

The loan from financial institution is measured at amortized cost. The carrying value of the loan is estimated to substantially correspond to their fair values.

9. Equity

During the reporting period, the company has repurchased 240,000 of its own shares. Detailed information can be found in Section 3. Significant events of the reporting period.

10. Contingent liabilities

EUR million	31 Jul	31 Jul	31 Jan
	2023	2022	2023
Liability for leases with the lease term beginning after the end of reporting period	15.6	25.4	17.4

Puuilo's contingent liabilities consist of lease liabilities for the leases with the lease term beginning after the end of the reporting period and are therefore not yet recognised in the balance sheet.

11. Related party transactions

Puuilo Group is controlled by Puuilo Plc. In addition, Puuilo's related parties include key personnel of the Puuilo Group, their close family members and companies controlled by them. The key personnel include the members of the Board of Directors, the CEO, and the Group Management Team.

The Puuilo Group purchases some products it sells in its stores from companies owned by related parties. These companies manufacture products that are part of Puuilo's product assortment. In addition, the company leases business premises from related parties. The group's lease liabilities to related parties include the present value of the future lease payments of the above-mentioned leased premises. Transactions with related parties have taken place at market price and on normal terms. All Puuilo employees are entitled to the ordinary personnel discount in Puuilo stores. A related party employed by Puuilo is entitled to this discount. This information has not been presented as related party transactions.

The following transactions were carried out with related parties:

12. Significant events after the end of reporting period

Puuilo did not have any significant events after the reporting period.

Calculation of certain alternative performance measures and other key figures

Puuilo uses alternative performance measures to reflect the changes in business performance and profitability. These indicators should be examined together with the IFRS-compliant performance key indicators.

Like-for-like store net sales development is used to reflect the changes in Puuilo's business volume between periods. The indicator reflects the change in the net sales excluding the impact of new stores. Like-for-like stores include the stores that have existed during both the review period and the comparison period.

Adjusted profit and profitability indicators are used to improve the comparability of operational performance between periods. Items affecting comparability include unusual material items outside the ordinary course of the business. These unusual expenses relate to listing expenses, strategic development projects and administration.

Alternative performance measures, adjusted for the effect of IFRS 16, are used to monitor the achievement of financial targets. EBITDA excluding the effect of IFRS corresponds to EBITDA before the adoption of IFRS 16.

In addition, financial performance indicators for the group have been presented as alternative performance measures. The management uses these indicators to monitor and analyse business performance, profitability and financial position.

Key figure	Definition
Like-for-like store net sales development (%)	Like-for-like store net sales development is calculated as the net sales development of the comparable stores that are not considered new or closed stores.
